

1

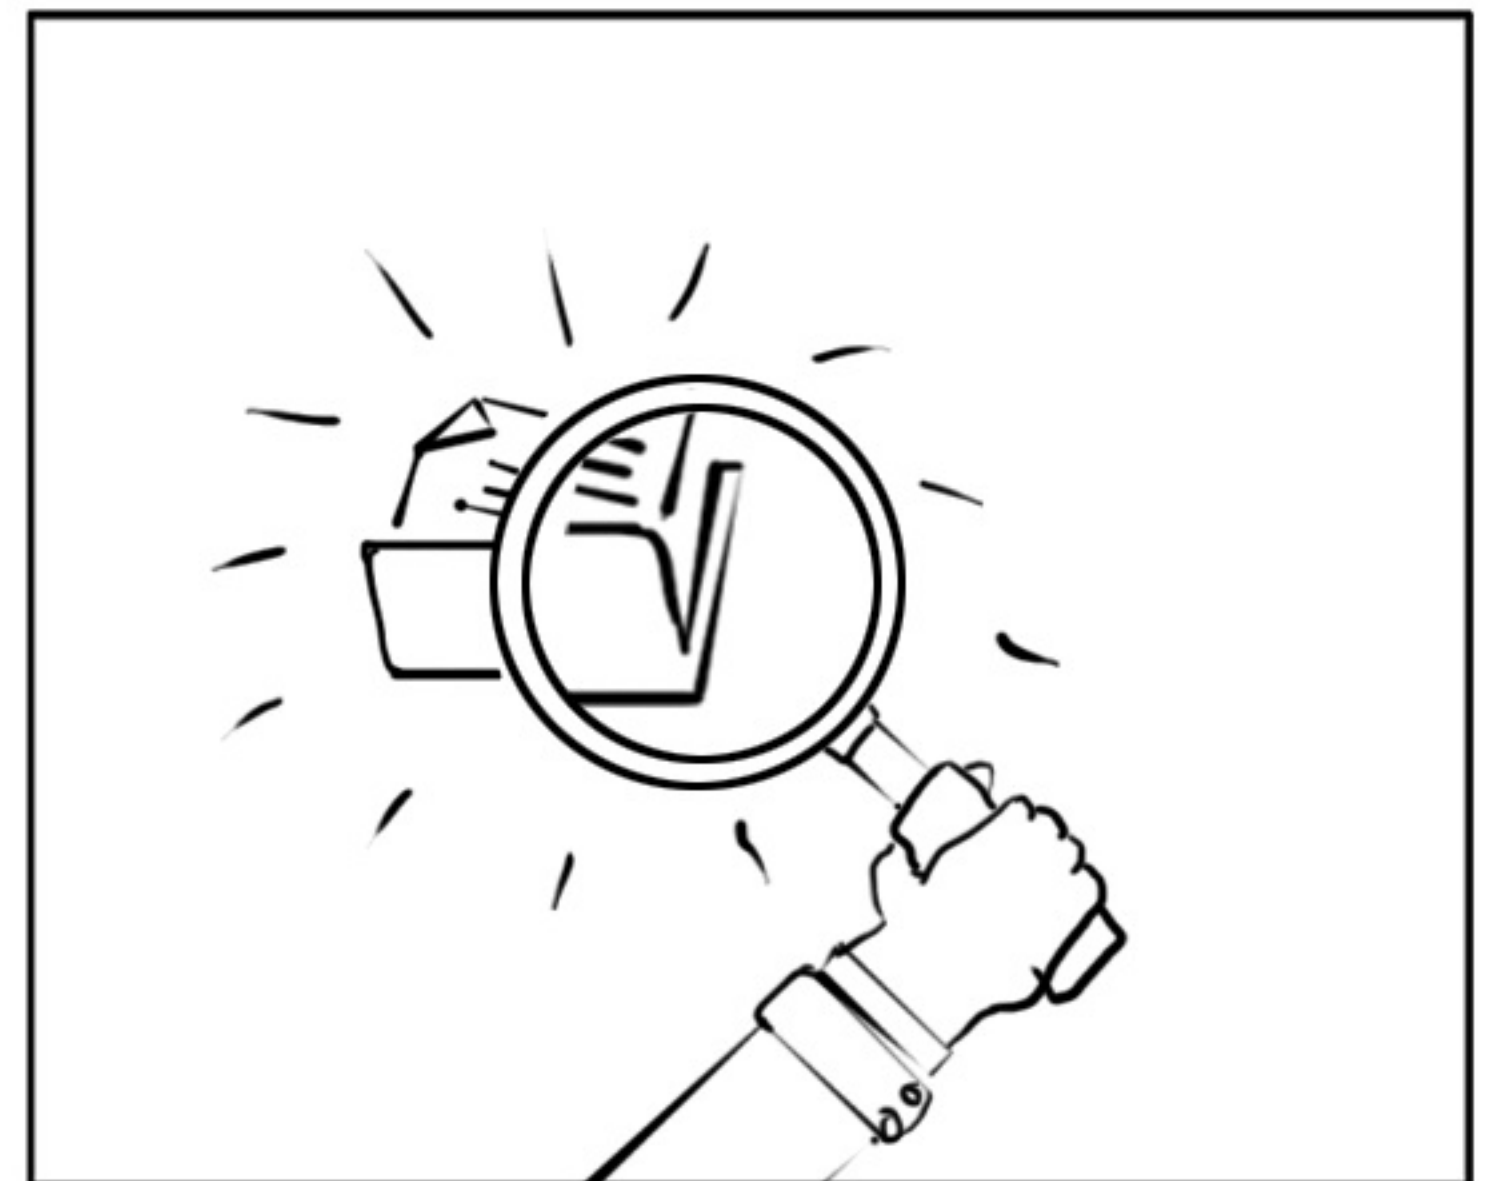

Information on your assets is probably all over the place.

2

In different spreadsheets, databases, documents and locations.

3

Until now, the only way to keep track of them

4

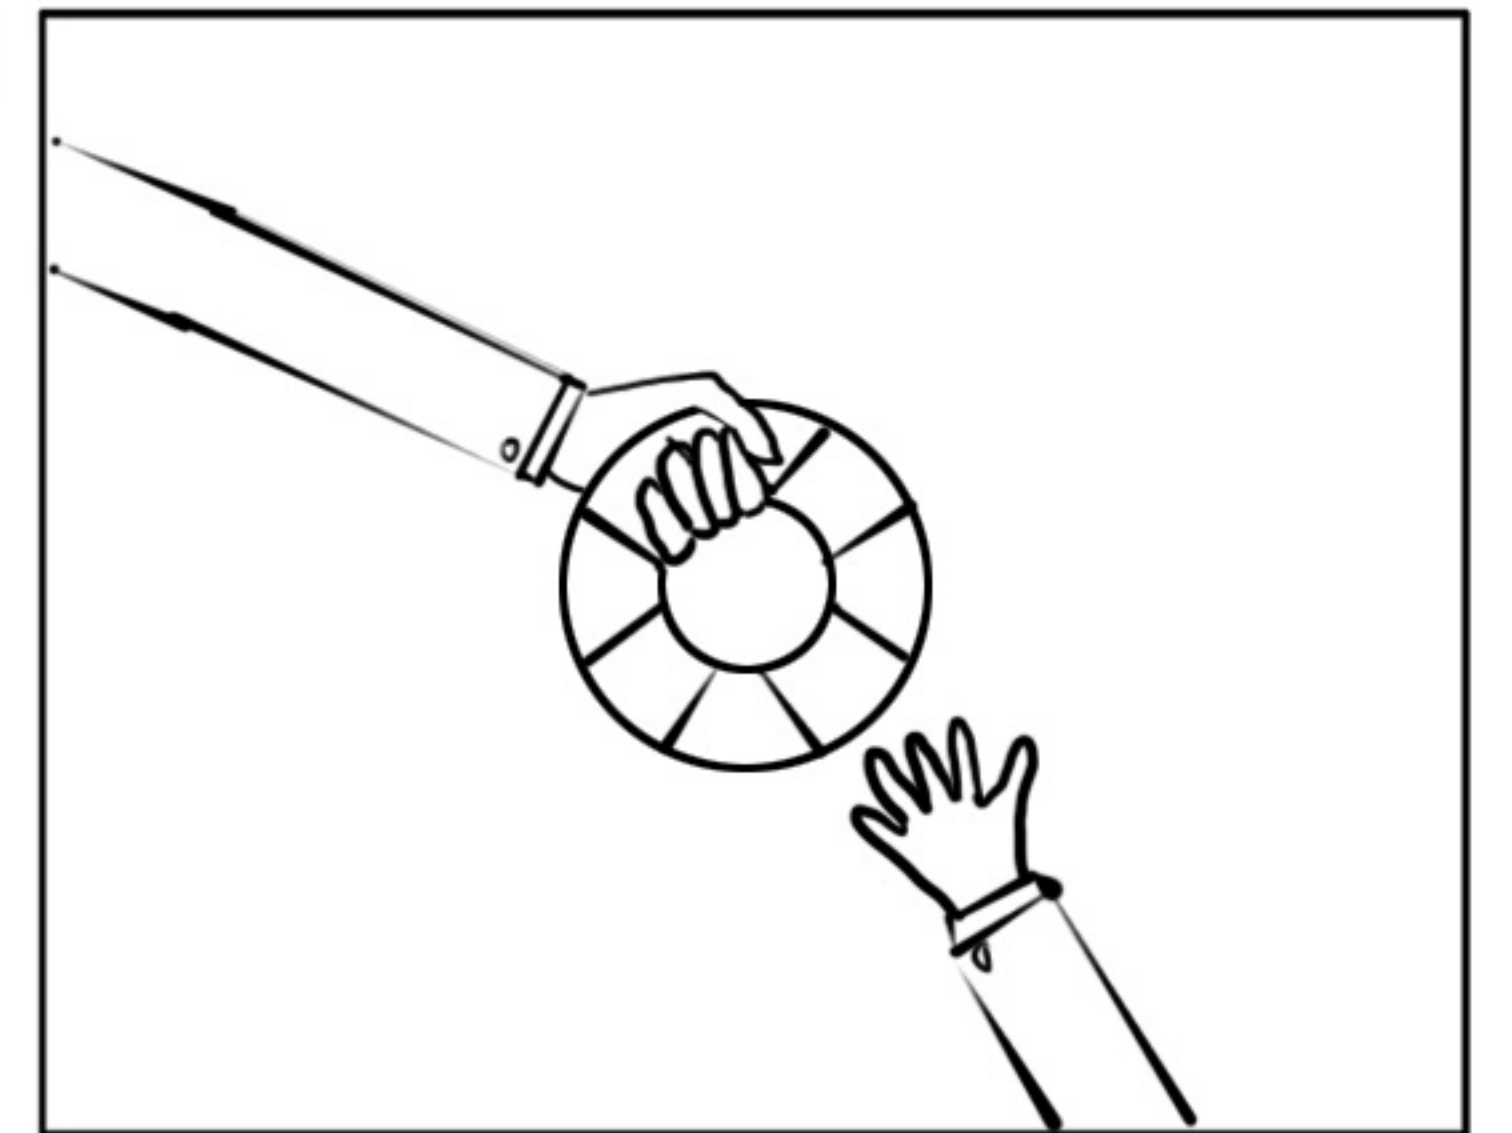

has been through a time consuming, frustrating and laborious manual process

5

So you could be losing or misplacing assets and not even know it.

6

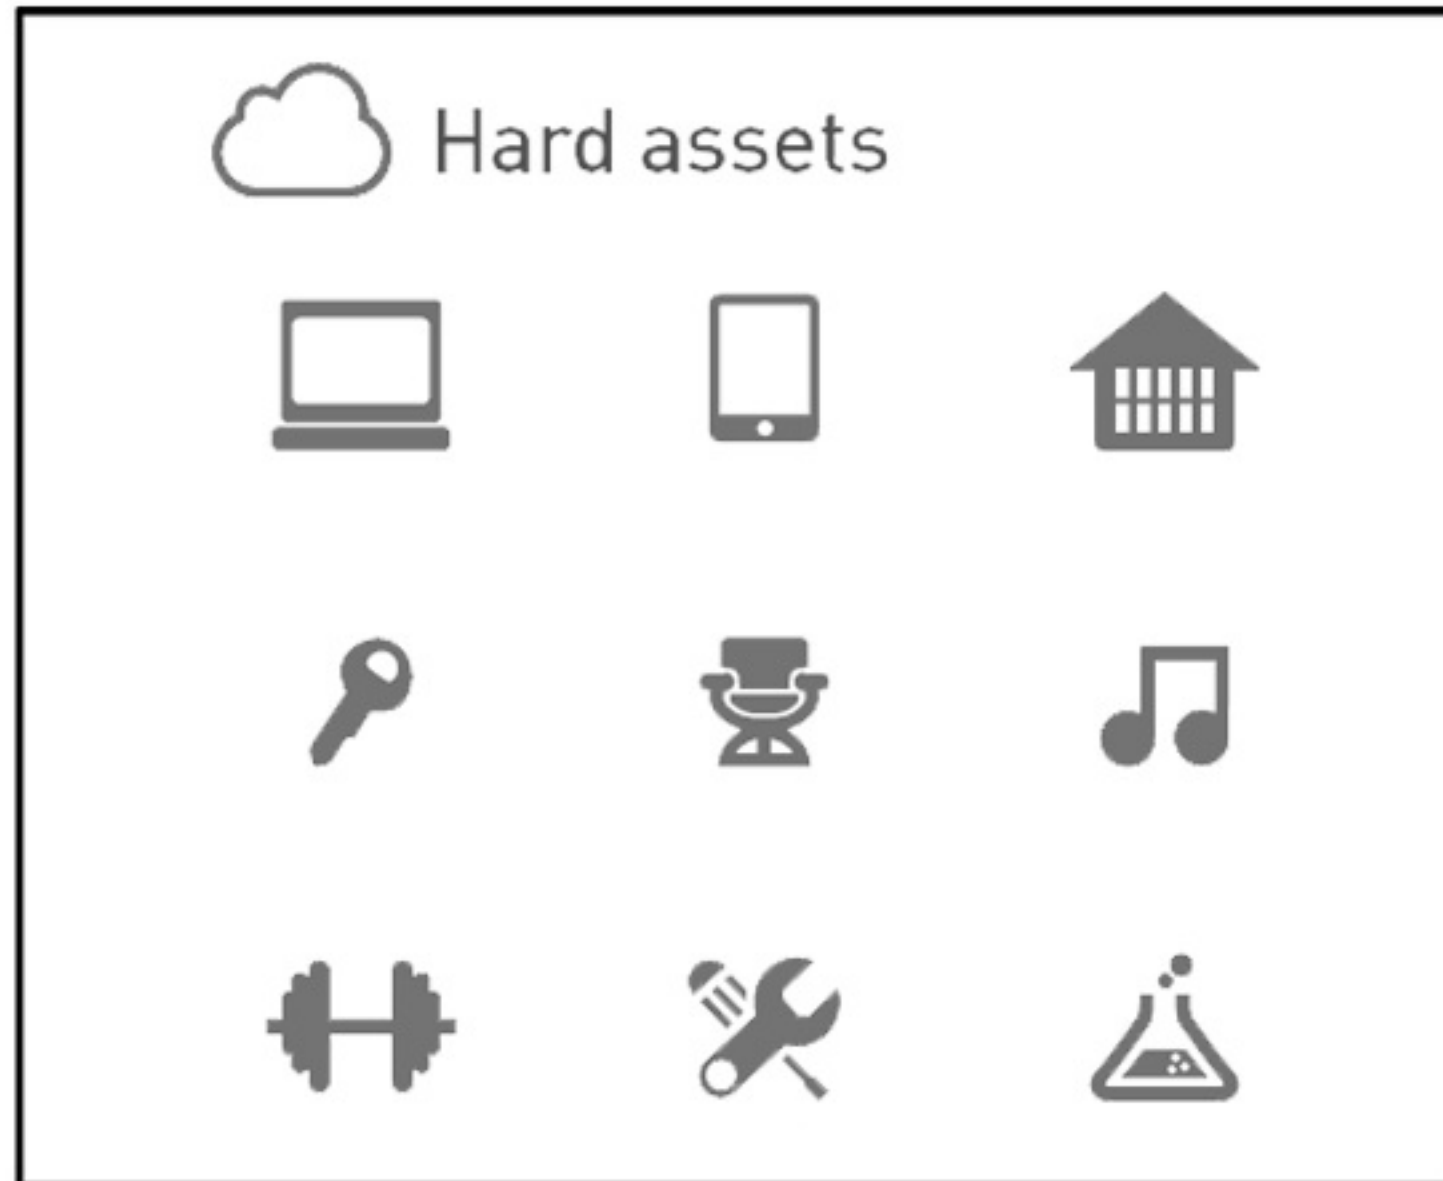

Well, help is at hand.

7

School Asset Manager is the easy and convenient way to manage all your assets in one place

8

From hard assets such as notebooks, tablets, instruments, vehicles and even buildings

9

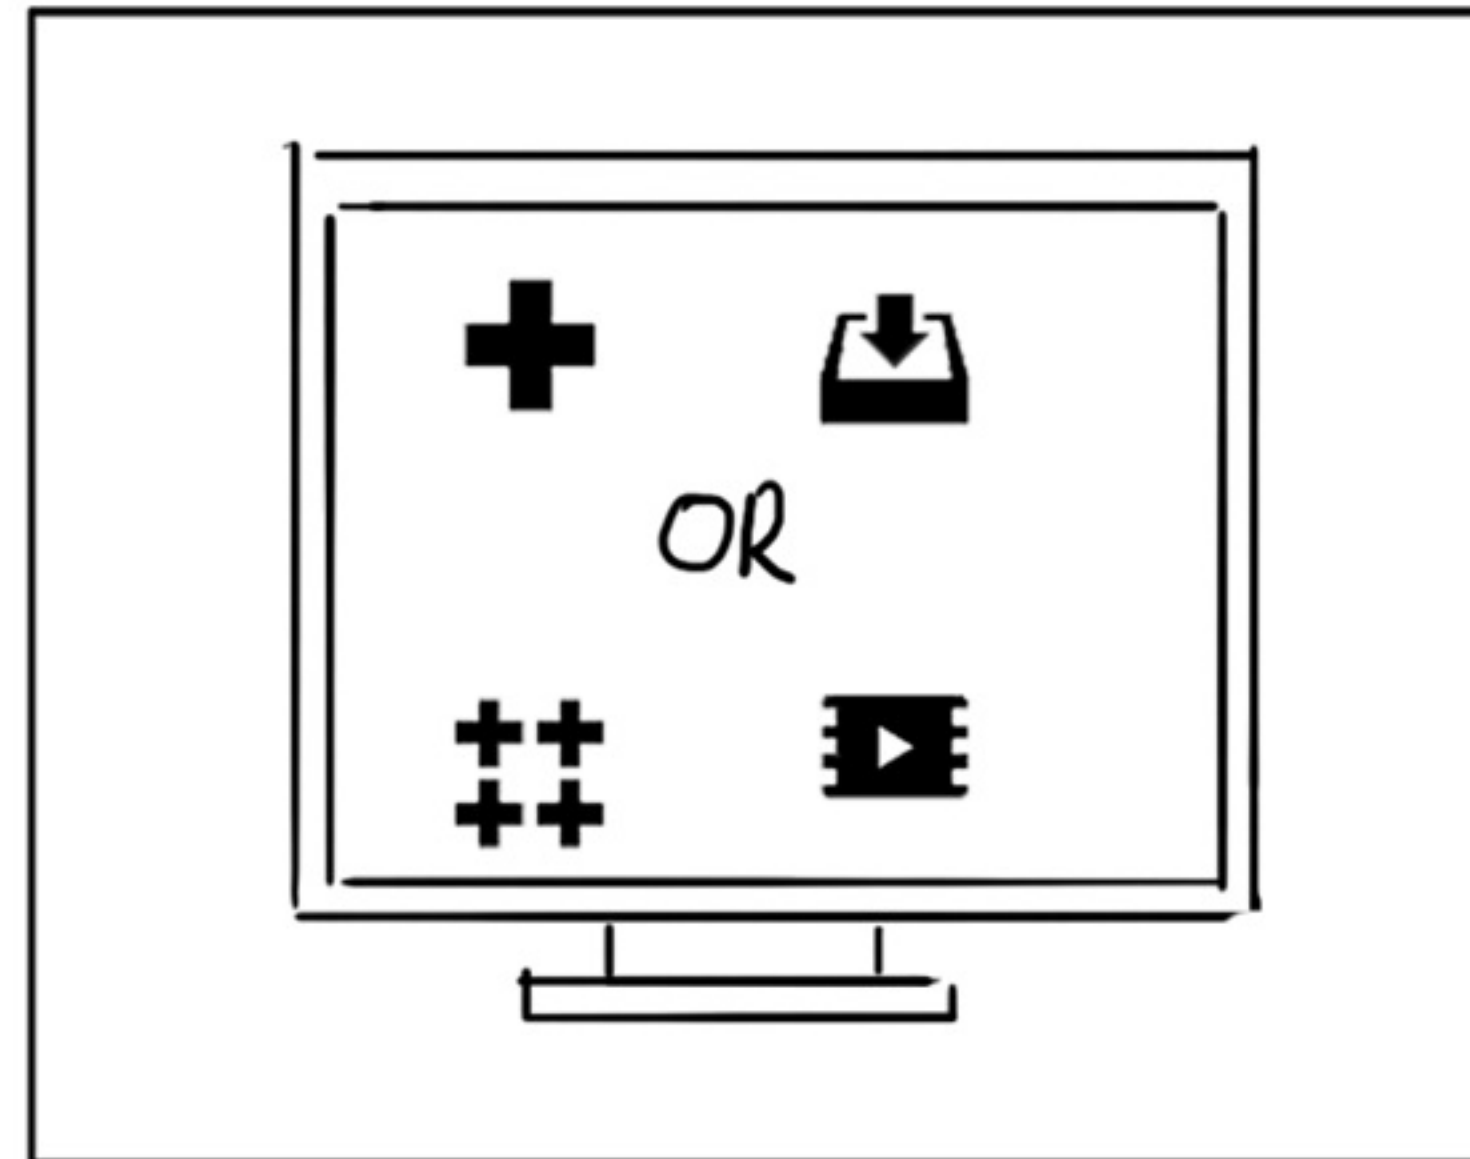

through to soft assets such as important documents, contracts, plans or procedures

10

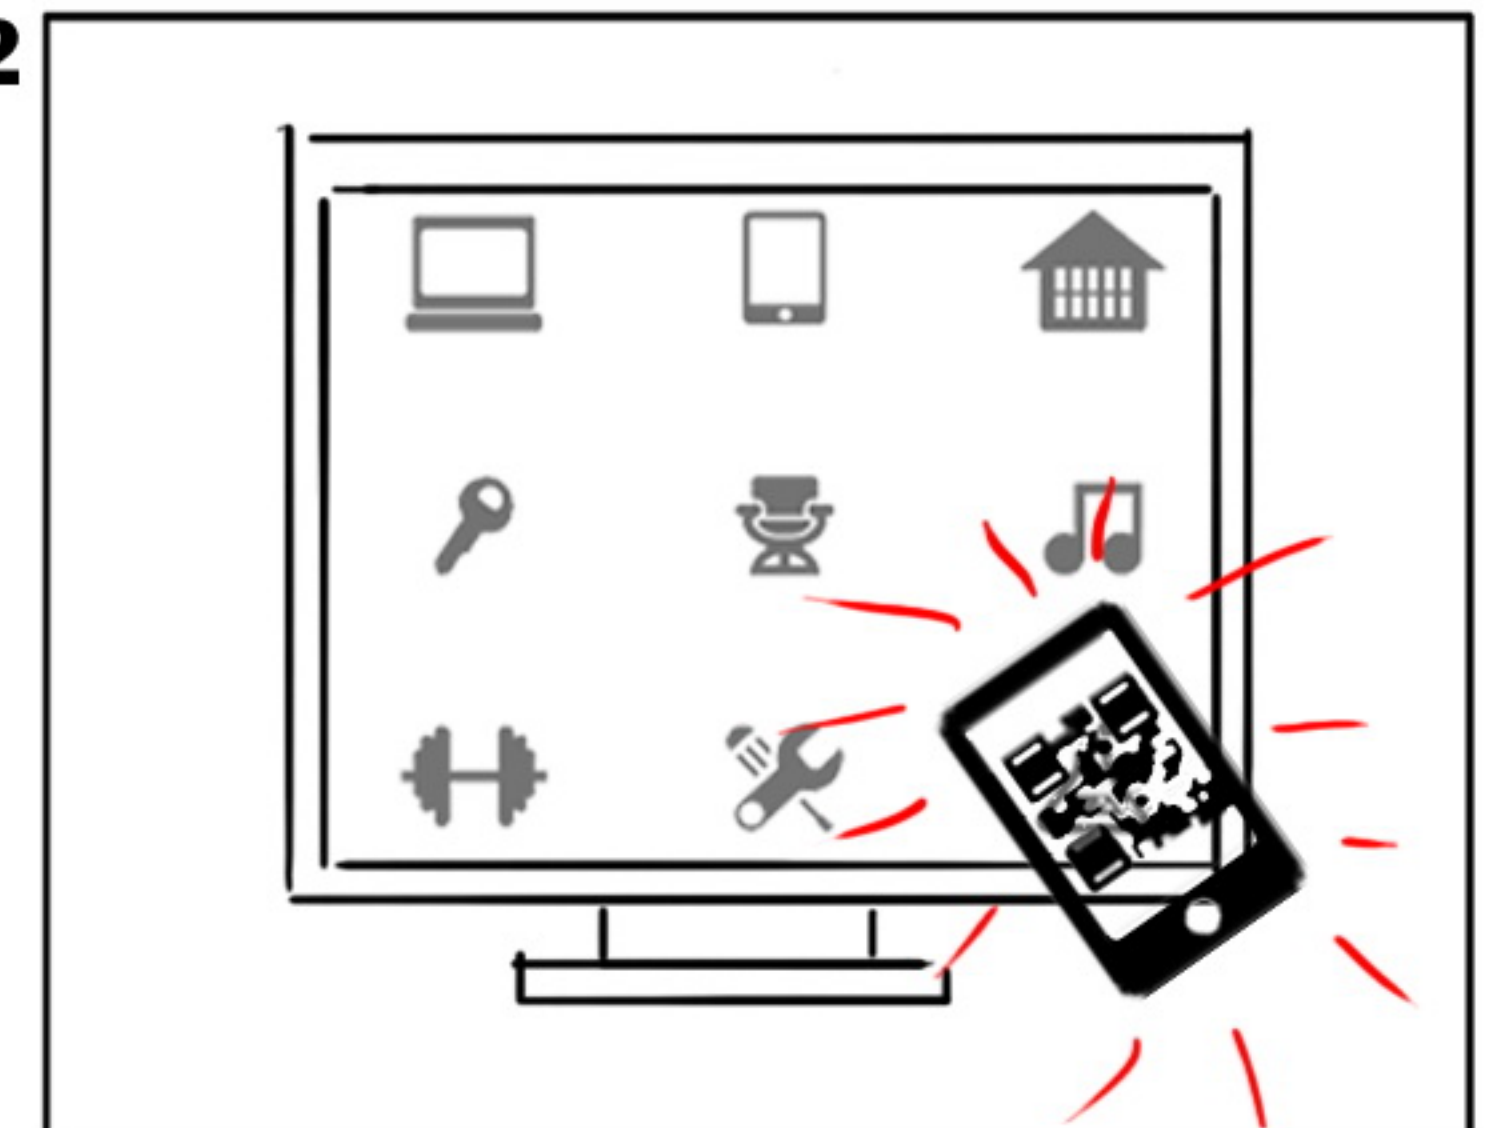

which need monitoring or maintaining.

11

Simply add items individually, add in bulk or import them all

12

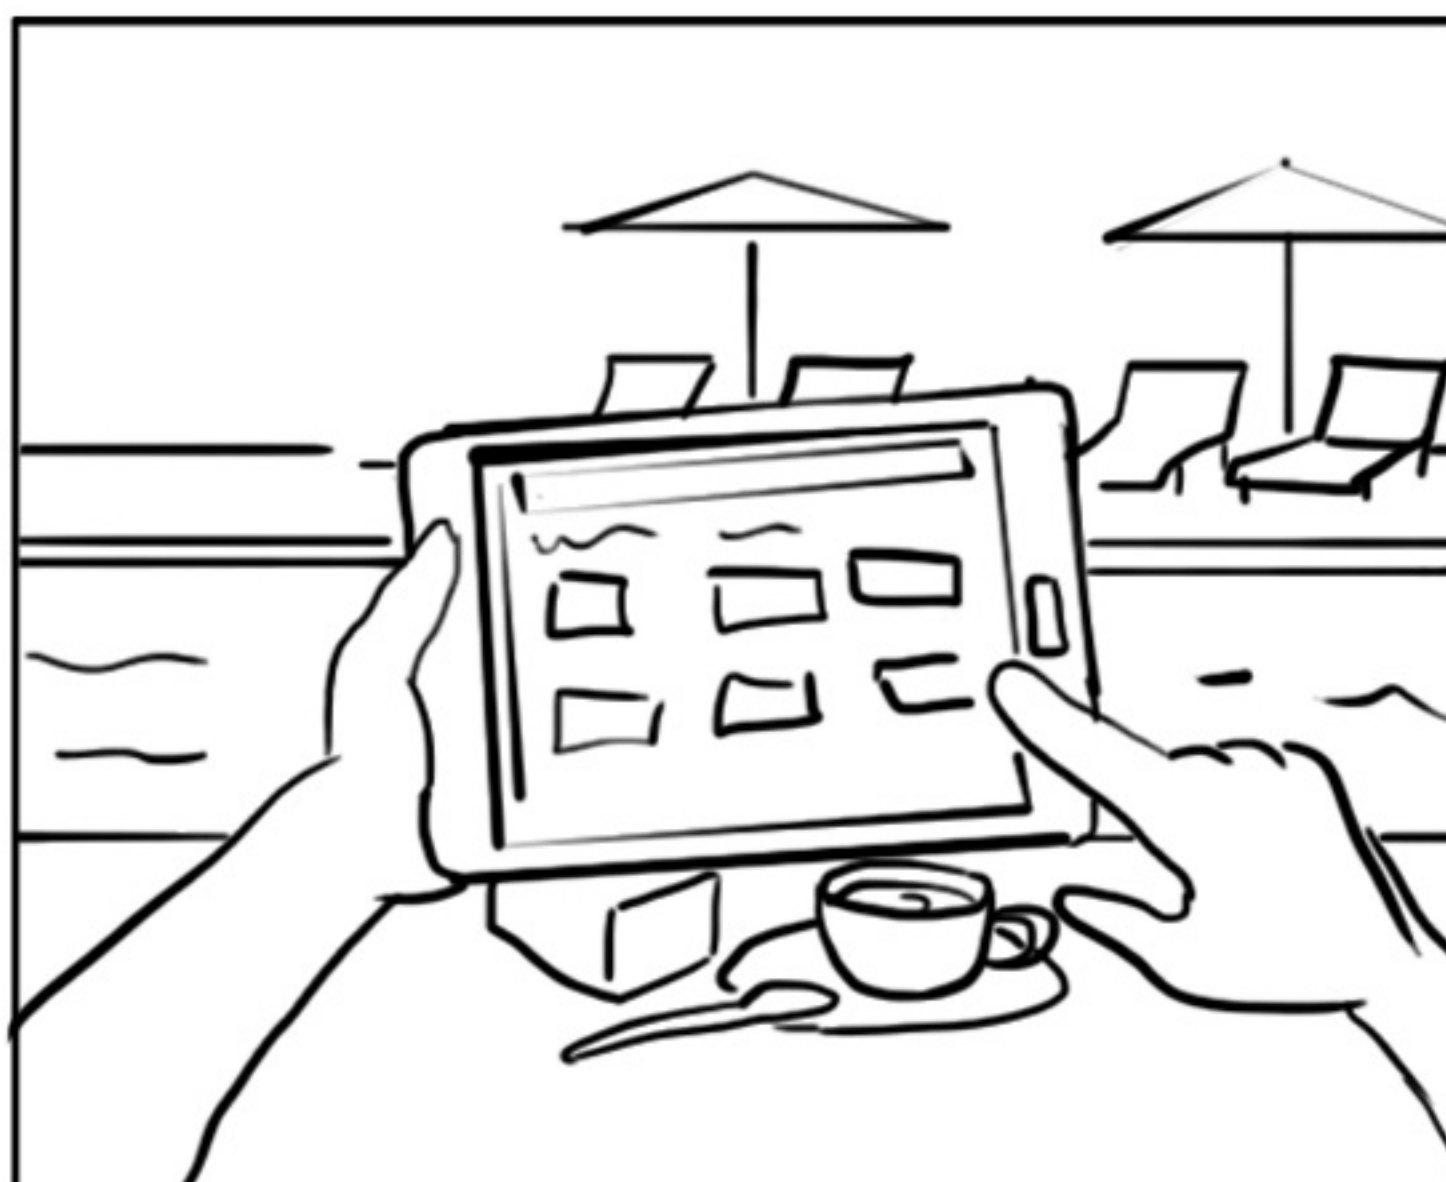

With a tag on each item just scan to access and update asset information on the move.

13

It's the asset register in your pocket!

14

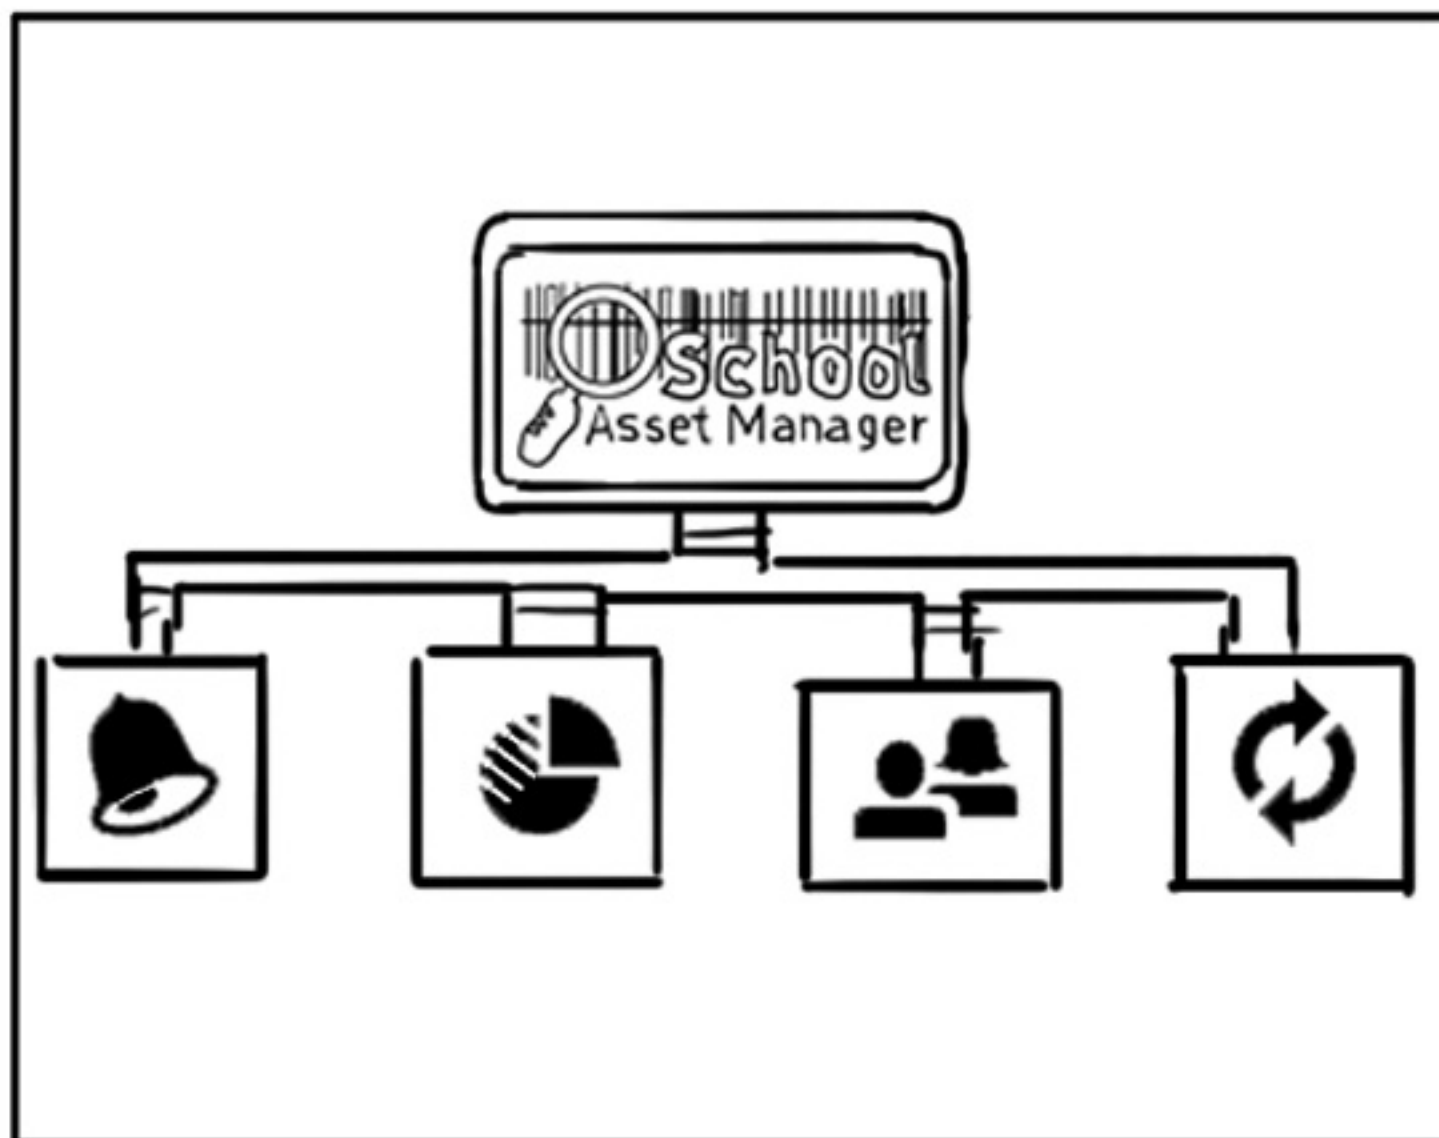

Now, you can manage the movement and lifecycle of all your assets from anywhere

15

No headaches, No hassles, No frustration.

16

Advanced reporting, audit trails and more help you meet your compliance obligations.

17

This is why we're trusted by thousands of schools worldwide

18

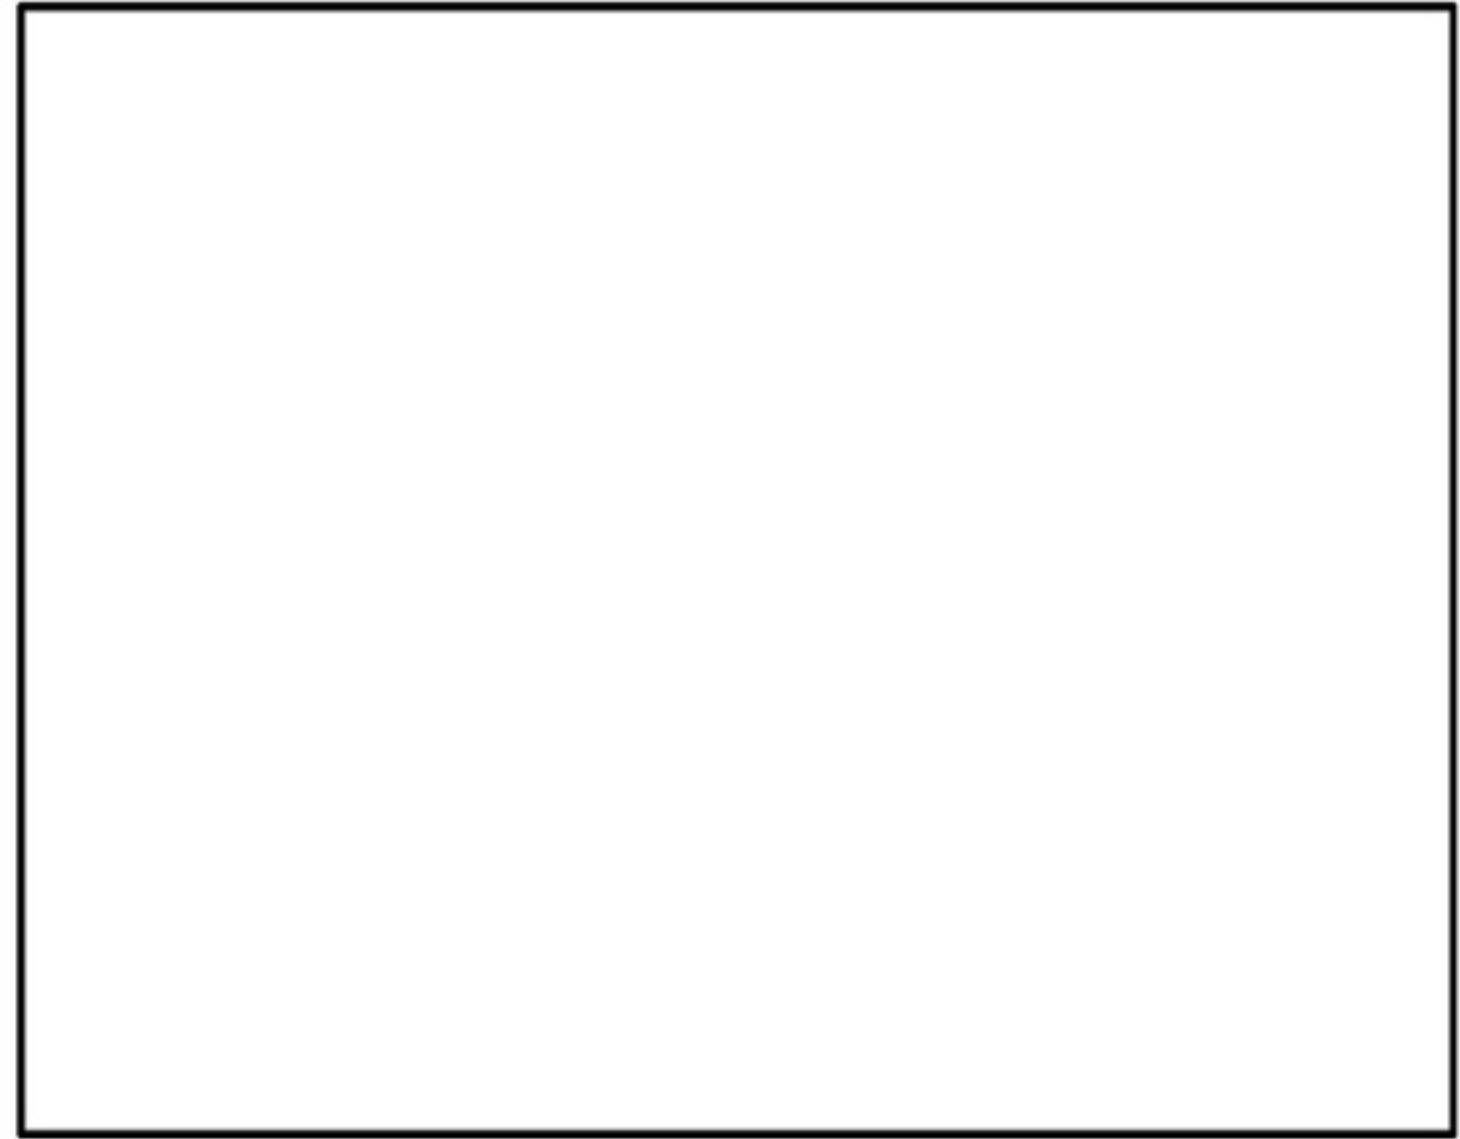

like you to save time money and stress.
